

APPLICATION- and PRODUCT DATASHEET

Fluna Isopropanol

Add on Product to Fluna Anti Fog

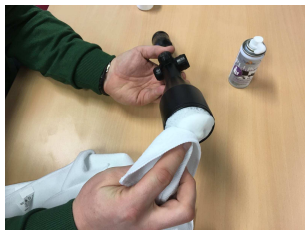

Fluna Isopropanol is an add on product to Fluna Anti Fog. It is used to prepare / degrease the glass surfaces when the product Fluna Anti Fog is to be applied. **Fluna isopropanol** is pure alcohol and does not harm any special coatings of optics. **Fluna Isopropanol** can be applied very easy.

Characteristics :

- ✓ Suitable for all types of glass
- ✓ Especially optics for hunting
- ✓ Fast effect

INSTRUCTION FOR USE :

Clean glass surface with a brush or or compressed air. Then clean the surface with Fluna TFT / Optik foam cleaner according to the instructions so that the glass surface is clean and streak-free. Then degrease the glass surface with **Fluna Isopropanol**. This is necessary to prepare the surface for applying Fluna Anti Fog. Finally, spray Fluna Anti Fog lightly on the dry glass surface and allow to work for a few minutes. See instructions for use.
