

# APPLICATION- PRODUCTDATASHEET

## Gun Grease with high pressure resistance

**Fluna Gun Grease** is a white gun grease with high pressure resistance. **Fluna Gun Grease** is used to lubricate highly stressed and slow moving parts, such as joints / hinges and barrel hooks of all types of tilting barrel guns (breakdown). **Fluna Gun Grease** is also used to lubricate and maintain threads of silencers and prevents "seizing" of metal parts.

### Properties :

- ✓ Suitable for all joints of breakdown guns
- ✓ Application on steel, stainless steel and aluminium
- ✓ Easy to apply
- ✓ Very good sliding properties
- ✓ Salt- and Freshwater resistant
- ✓ Economical in consumption
- ✓ Very good corrosion protection
- ✓ Prevents „seizing“ of metal parts under heat

### Instruction for use :

Fluna **Gun Grease** is basically applied to the cleaned, dry surface. The application is done sparingly on joints or hinges of tilting barrel guns and very thinly on threads of all kinds.

The compatibility with sensitive surfaces must be tested before application !

**PRODUCT DATAS :**

**Article No. :** GCWF001015 15g Tube

**EAN-Code :** 9 1200 4142 7107 Single Produkt in Blister  
9 1200 4142 7114 Overpack with 12 pcs

**Intrastat No. :** 34039900

**UFI Code :** No UFI required

**Product Size :** 15g Plastic Tube

**Packaging Unit :** 12 pcs in a box / 0,50kg each box

**Storage :** cool and dry at ca. +5°C to +25°C

**Dangerous Good :** NO dangerous good  
NO VOC

**Labels :** Instruction Leaflet in Blister  
Languages : DE,GB,FR,IT,SE,FI,NL,CZ,DK,NO,PL,RO,SK,SI
