

# APPLICATION- and PRODUCT DATASHEET

## Fluna Gun Oil

### Gun Oil with very good anti-corrosion protection properties

**Fluna Gun Oil** is a gun oil with very good anti-corrosion properties. It can be used on all types of firearms and knives. **Fluna Gun Oil** provides good sliding properties for moving parts, especially bolt action systems. **Fluna Gun Oil** cleans barrels and other gun parts from powder residues and burnt residues. **Fluna Gun Oil** preserves sensitive steel parts and provides reliable, long-term protection against corrosion.

Fluna Gun Oil is free from heavy metals, PCB, PCT and phenol.

#### Properties :

- ✓ Suitable for all types of firearms and knives
- ✓ Application on steel, stainless steel and aluminum
- ✓ Thin and therefore easy to apply
- ✓ Very good sliding properties,
- ✓ Salt and fresh water resistant, economical in consumption
- ✓ Very good corrosion protection
- ✓ Does not resinify, does not stick
- ✓ Cleans dirt, powder smoke and burnt-on residues

#### Instructions for use:

**Fluna Gun Oil** is basically applied to the cleaned gun. Degreasing of gun parts prior to application with Gun Oil is not necessary. **Fluna Gun Oil** is sprayed thinly onto the surfaces and then spread with a lint-free cloth so that a thin, damp film covers the surface. Be sure to completely wet the surfaces to be protected. **Fluna Gun Oil** is also used to clean and preserve all types of barrels.

The compatibility with sensitive surfaces must be tested before use !

**Fluna Gun Oil** is free from VOC, heavy metal, PCB, PCT and Phenol.
