Fluna Gun Care Set 3

Gun Care Set especially for Rifles

Fluna Gun Care Set 3 is a weapon care set especially for rifles. It contains the ceramic high-performance coating Fluna Gun Coating in the 100ml aerosol can as well as the products Fluna Gun Degreaser and Fluna Bore Pro barrel cleaner, each in the 50ml dropper bottle.

With this set we address the typical customer with long guns who has switched from a gun oil to the coating technology of Fluna Tec or now wants to do so. As a complementary product to the degreaser and gun coating, we have added the liquid barrel cleaner Fluna Bore Pro. With this product, professional barrel cleaning is done easy. Powder residues, combustion residues and metal deposits from copper bullets can be easily removed.

This set is an alternative Product to Set 2

PRODUCT - DATAS :
